China: Its Ancient and Modern History. Through the East Asian waters its neighbouring countries maintain today a global network of cultural and economic exchanges. The earliest Chinese literary source attesting to the fact that the sea was central to the civilization's economy dates back to the Shiji, or Records of the Grand Historian, written in the 3rd century BCE. This work is considered the foundation of Chinese historical writing.

In more modern times, the author Lu Xun (1881–1936) is known for his contributions to the development of modern Chinese literature. His works, including the novel The True Story of Ah Q, reflect the complexities of China's past and present. The early development of accounting systems in China is also notable, with practices such as the use of recording and analysis of transactions dating back thousands of years.

In Europe, the earliest known diplomatic records trace back to the same era. The history of European literature and the diplomatic interactions with China through the early modern period is well documented. The vogue of Chinoiserie in eighteenth-century European literature and art is an example of how these core values and practices were integrated into a vast and complex industry responsible for the dissemination of all manner of goods and ideas.

From earliest times, man found it convenient and necessary to record transactions. In China, religious, educational, and bureaucratic developed capitalist economies; and they are integrated in a manner that is unique to the country.
